

Client is a multidisciplinary engineering, environmental, geological, information technology and business consulting firm. Building on our 52 year history, we provide a stable, challenging and rewarding environment for personal growth and development. Our vision at Client is to continue being a company that stands for People, Passion and Performance and is trusted globally by our customers.

Client has been active in the mining industry since early 1960, delivering critical engineering and environmental services to senior mining clients. Our success includes assisting the junior mining industry move development projects forward from grassroots exploration, to prefeasibility, feasibility, detailed engineering, procurement, construction management and ultimately, operations.
