

Position Overview

Client Corporation is a multidiscipline engineering, geomatics and planning consulting firm with offices in major centers throughout Western Canada. Due to recent growth of our Transportation team, we are currently seeking a dynamic individual and leader to assume the newly created role of Vice President Transportation. Due to the nature of the position, we are open to discussing the appropriate office location for this role.

Responsibilities Reporting to the Executive Vice President of Engineering you will:

- Lead the growth of a multidisciplinary team of Transportation professionals currently located throughout Alberta and British Columbia;
- Develop and maintain strong client relationships;
- Work closely with the Transportation Team, our Marketing and Communications staff, and others to enhance existing business development strategies and develop new ones;
- Be actively engaged in proposal and project development.

Requirements As the ideal candidate you have:

- At least 15 years of experience and an excellent reputation for providing service and maintaining client relationships in the transportation consulting industry (preferably in Western Canada);

- A P.Eng. designation (APEGGA or APEGBC eligible) or equivalent experience and credentials;

- The proven ability to lead large groups of multidisciplinary professionals;
- Have exceptional oral and written communication skills.
